FOREWORD

On behalf of the Public Service Commission, I am pleased to present the 2017/18 Annual Report. This is the seventh report since the coming into effect of the Constitution of Kenya in 2010. This report is in compliance with Article 254(1) of the Constitution that requires the Commission to prepare and submit a report to the President and Parliament at the end of each financial year. Section 90 of the PSC Act, 2017 also obligates the Commission to submit a report within three months following the closure of the financial year.

Going forward, the Commission will build on the progress so far made and renew its focus on deepening a performance culture in the public service This report covers operations, financial of statements and achievements Commission in the delivery of its mandate as spelt out in Articles 234, 155(3)(a), 158(2)(3) and (4), 171(2), 230(2)(b) and 236 of the Constitution. The mandate entails establishment and abolition of offices, provision of competent human resource, promotion of good governance and ensuring efficiency and effectiveness in the provision of quality services in the Public Service. The Commission is guided by the values and principles in Articles 10 and 232 of the Constitution, Public Service Commission Act of 2017, Public Service (Values and Principles) Act, 2015 and other relevant legislations in discharging its mandate.

The report coincides with the end of the six-year term of the current Commissioners namely; Vice Chairperson Amb. Peter Ole Nkuraiyia, Dr. Judith Bwonya, Patrick Gichohi, Titus Ndambuki, Prof. Michael Lokuruka, Veronicah Birgen, Catherine Omweno and Lawrence Nyalle who served during the transition period under the leadership of Prof. Margaret Kobia.

Prof. Kobia led the Commission from January, 2013 until January, 2018 when she was appointed Cabinet Secretary, Ministry of Public Service, Youth and Gender Affairs and was succeeded by Amb. Nkuraivia in an acting capacity. During this period, significant progress was made towards the realization of the Commission's mandate. Specifically, the Commission developed many policies and guidelines to manage the Human Resource in the public service, developed a new legal framework culminating in the enactment of PSC Act, 2017, developed and implemented the Values and Principles Framework for effective promotion and compliance with values and principles in Article 10 and 232, restructured the Secretariat to enable the Commission effectively discharge its expanded mandate, supported devolution through capacity building of County Public Service Boards and ensured seamless transfer of service for officers performing devolved functions.

These achievements, among others have been realized through the hard work and commitment of the Commissioners and Secretariat as well as

Authorized Officers to whom the Commission has delegated its authority and functions. I wish to express my sincere appreciation for their cooperation which has led to great achievements by the Commission.

Going forward, the Commission intends to build on the progress so far made and renew its focus on deepening a performance culture in the public service. The Commission's top priority will be to enhance the productivity of the public service through the implementation of a performance management framework that ensures everyone is on measurable targets that are specific and time bound.

In recognition that resources are scarce and given the many competing priorities in government, the Commission will put in place measures to ensure optimal utilization of resources to eliminate wastage. We will also endeavor to ensure that there is continuous improvement for efficiency and effectiveness in service delivery.

Recognizing that any successful organization has to be anchored on proper positive values, we will endeavour to promote an ethical and honest culture geared towards the transformation of the public service to one that is responsive and fit for purpose, exhibiting a

high regard for values, ethics, standards and respect for professionalism. We envisage to construct a future public service able to thrive on hard work, honesty and integrity.

To achieve this, the Commission will continue to work closely with all stakeholders in line with our vision of transforming the public service to be dynamic, professional, efficient and effective for the realization of national development goals. Specifically, the Commission will focus on supporting the Government in the realization of the Big Four Agenda priorities by ensuring provision of quality human resource.

Finally, I note with appreciation that the preparation of the 2017/18 Annual Report has been a joint effort by the Commissioners and the Secretariat. They have worked tirelessly to ensure the report is ready in time for submission as required by law. I am grateful to them for this achievement.

Stephen K. Kirogo, CBS Chairperson

PUBLIC SERVICE COMMISSION

PRFFACE

The 2017/2018 financial year presented the Commission with an opportunity to serve the people of Kenya through the support we provide to institutions under our mandate. Kenyans expect quality services from public institutions that are funded through the taxes they pay. In this regard, the Commission undertook various steps during the year under review in an effort to meet these expectations. These included establishment of offices, review of organizational structures, provision of competent human resource, automation appraisal system, capacity building, development of a framework for uniform norms and standards in human resource management and implementation of a framework for promotion and evaluation of values and principles among others.

Additionally, the Commission continued to support devolution through provision of technical and advisory services to County Public Service Boards and County Assembly Service Boards in areas of human resource management. These measures enabled the Commission to enhance efficiency and effectiveness of the public service.

During the year under review, the Commission achieved a budget absorption rate of 98.9%.

During the 16th edition of the Financial Reporting Award ceremony held in November, 2017, the Commission was awarded Second Runners-up position for the Financial Year 2015/2016, in the Independent and Constitutional Offices category. This is a reflection of the Commission's sound and prudent management of financial resources translating to better service delivery.

In order to boost staff morale and productivity, the Commission operationalized a new staff mortgage and car loan facility, provided medical insurance cover including work injury benefit and group personal accident cover for all staff, opened a health and fitness gym as part of staff welfare, healthy lifestyle and work-life balance, introduced a contributory pension and gratuity scheme and leveraged on international sponsorships for staff capacity building.

I thank the Chairperson Mr. Stephen Kirogo, former Chairperson Prof. Margaret Kobia, Vice Chairperson Amb. Peter Ole Nkuraiyia and the Commissioners for providing strategic direction, without which these achievements would not have been realized. I also recognize the commitment and hard work of the secretariat staff in facilitating the operations of the Commission during the period under review.

The Commission encountered some challenges, key among them being reduced exchequer financing when compared to the Commission's real annual budget requirements, high cost of litigation arising from increased court cases against the Commission and MDAs and high unemployment rate among the youth leading

to an over-subscription of the few positions available in the public service.

This report is organized into six chapters. Chapter one provides the background information on the Commission and functions. Chapter two highlights the delivery of the Commission's mandate, chapter three covers the collaborations, networks and partnerships while chapter four outlines the financial and audit reports. Chapter five outlines the challenges and opportunities while chapter six presents the way forward.

Finally, I wish to thank the Inter-departmental task team led by Mr. Gabriel Juma for the excellent work in preparing this report.

In the execution of its mandate, the Commission has delegated some of its powers and functions to Authorized Officers in MDAs who have played a critical role in the discharge of the delegated function. We are grateful to them for their contribution towards the realization of the Commission's mandate.

I also wish to recognize the hard work and commitment of the secretariat staff in facilitating the operations of the Commission under the leadership of the Secretary/CEO Dr. Alice Otwala.

EXECUTIVE SUMMARY

This is the seventh Annual Report of the Commission since the coming into effect of the Constitution of Kenya in 2010. The report is prepared pursuant to Article 254(1) of the Constitution and Section 90 of the PSC Act, 2017 which requires Commissions to prepare and submit a report to the President and Parliament after the end of each financial year. It covers the period 1st July, 2017 to 30th June, 2018.

The Commission's cumulative expenditure for the Financial Year 2017/18 was Kshs.1,351,822,000 comprising recurrent expenditure of Kshs.1,347,512,620 and development expenditure Kshs.4,309,380 which translated to a budget absorption rate of 98.9%.

The Commission reviewed organization structures for 11 MDAs and created 5,809 posts. Further, 8,089 persons were appointed to various positions in the public service out of which 1,446 were new entrants while 6,643 were promotional appointments. The two thirds gender rule was met in appointments and there was an increase of PWDs promoted compared to the previous year.

The Government with the assistance of Development partners sponsored 6,430 officers for training in various programmes to build capacity and improve service delivery.

The Commission held the third Annual Public Service Excellence Award (PSEA) ceremony where eight public servants and one team were recognized for exemplary performance.

As part of the implementation of the SRC Job Evaluation Report, the Commission developed salary structures for civil servants, uniformed officers in the Prisons Service and the National Youth Service. The new salary structure was implemented with effect from 1st July, 2017.

The Commission submitted to the President and Parliament the evaluation report on values and principles for the financial year 2016/17 which indicated an improved compliance rate of 70%; and recorded an improved compliance level of 11% with regard to the two-year financial declarations.

The Commission collaborated and networked with several development partners, agencies and professional associations in various forums at local, regional and international levels. These engagements presented the Commission and the service with opportunities for capacity building, benchmarking, sharing experiences and ideas in areas of common interest.

In discharging its mandate, the Commission encountered challenges among them inadequate budgetary support to facilitate planned programmes and activities, high costs of litigation arising from increased court cases, inadequate ICT infrastructure leading to slow uptake of automated SPAS across the service, reduction in training funds hampering acquisition of mandatory professional skills and competences required for career growth and development.

Moving forward, the Commission will upscale programmes to transform the public service for the realization of national development goals and improved service delivery. These will include: Implementation of a competency based approach to recruitment and selection at every level; development and implementation of a Human Resource Management and Development Master Plan; re-orientation of training to focus more on skill based courses; review and implementation of the Performance Management Framework to embrace accountability mechanisms and real time productivity enhancement initiatives; development of procedures to convert

The Commission collaborated and networked with several development partners, agencies and professional associations in various forums at local, regional and international levels

Commission's decisions on County Appeals into court orders in collaboration with the Judiciary; development of a Citizen Service Delivery Charter and automation of the declaration of income, assets and liabilities to allow online declarations.

The Commission recognizes the contribution of MDAs, devolved units and other key stakeholders in the delivery of the Human Resource function. We will escalate our engagement with them in order to address emerging human resource issues in fulfilment of the Commission's mandate.

4.5 Access to Government Procurement Opportunities (AGPO)

The Public Procurement and Disposal (Preference and Reservations) (Amendment) Regulations, 2013 require public entities to allocate at least 30% of procurement of goods, works and services to micro and small enterprises owned by youth, women and persons with disabilities.

During the year under review the Commission recorded an 8% improvement in allocation to special groups under the AGPO programmme. Out of a total procurement budget of Kshs.399,871,564, Kshs.92,940,861 (23.24%) was allocated to special groups compared to Kshs 62,280,121 in the previous year as shown in Table 4-9.

4.6 Internal Controls and Audit

The Commission has an established Internal Controls and Audit Unit in compliance with the Public Finance Management Act, 2012 and Public Finance Management Regulations, 2015. During the year under review, the Commission reconstituted the Audit Committee and brought on board two members from the private sector.

The Unit carried out financial and nonfinancial audits to establish the effectiveness of internal control systems and overall risk management of the Commission in carrying out its core constitutional mandate. The audit report findings and recommendations were implemented to enhance efficiency and effectiveness in the operations of the Commission.

In conclusion, the Commission achieved a budget absorption rate of 98.9% in the implementation of its programme; received Financial Reporting (FiRe) Award for second runners-up position in Public Sector (Cash Basis category) under the Independent and Constitutional Offices category for the third consecutive year and un-qualified audit opinion from the Auditor General for 2016/17 financial statements for prudent management of the Commission's voted funds.

CHAPTER FIVE CHALLENGES AND OPPORTUNITIES

This chapter outlines the challenges the Commission encountered during the year under review in the performance of its mandate. The chapter also points out the various opportunities which the Commission can exploit to improve service delivery. These challenges and opportunities are grouped into various categories as shown in Sections 5.1 and 5.2.

5.1 Challenges

During the year under review, the Commission faced challenges outlined below:

(a) Financial

- i) Inadequate budgetary support to facilitate planned programmes and activities in the Commission.
- ii) Austerity measures by the National Treasury thus affecting implementation of key programmes.

(b) Legal

- i) High costs of litigation arising from increased court cases against the Commission and MDAs.
- ii) Lack of a legal framework for public participation in policy making process.

(c) Performance Management

- i) Inadequate and inaccessible ICT infrastructure especially in the far flung areas and downtime of GHRIS leading to low access and low uptake of automated SPAS across the service; and
- ii) Exodus of technical staff in cadres such as engineers, architects, surveyors and doctors to private sector and foreign countries resulting in shortage of staff in such core areas thus affecting service delivery. This has been compounded by an aging workforce leading to loss of experienced and skilled officers.

(d) Human Resource Management and Development

-) Low response to job advertisements among PWDs leading to challenges in complying with the Constitutional requirement of allocating 5% of employment opportunities to persons living with disabilities. The Commission has endeavoured to address this challenge through making deliberate efforts to reach out to the PWDs by engaging with the National Council for Persons with Disability (NCPWD) and County Governments, encouraging PWDs to apply for advertised jobs as well as implementing affirmative action during appointments.
- ii) Reduction in training funds has hampered acquisition of mandatory professional skills and competences required for career growth and development of officers resulting in increased requests by MDAs for grant of temporary waivers.

e) Systemic

- i) Lack of coordinated multi sectoral approach in the promotion of values and principles.
- Lack of a value-based culture in the public service thus impacting negatively on service delivery.
- iii) High unemployment rate amongst the youth leading to high competition for the few advertised positions in the service.

5.2 Opportunities

In spite of the aforementioned challenges, the Commission has identified a number of opportunities which will be exploited to improve service delivery. These include:

a) Goodwill by Kenyans

The Commission enjoys goodwill from the Kenyan public as evidenced by the expansion of its mandate during the constitution making process. This apparent confidence makes it possible to execute its mandate with relative ease.

b) Relationship with Development Partners and Sister Commissions

The Commission enjoys good relationship with development partners and other sister commissions making it possible to get support in form of capacity building, skills

transfer, benchmarking visits and exchange programmes. In particular the fellowship programmes have opened up collaboration space and helped share best practices.

c) Engagement with County Governments

The Commission having existed for over 50 years has gained a wealth of experience in human resource management matters and county governments look upon the Commission for guidance, technical support and advisory services on human resource matters and values and principles. This gives the Commission an upper hand in determining norms and standards of the public service.

d) Relationship with Parliament

The Commission enjoys cordial relationship with the Parliament thus providing a platform for engaging on legislation, operations and other human resource matters relating to the public service.

CHAPTER SIX WAY FORWARD

This chapter presents the measures that the Commission will take in the next 12 months to improve on the delivery of its mandate in an effort to transform the public service. The initiatives are categorized into human resource management and development, performance management, monitoring and evaluation, implementation of the legal framework, resource mobilization, support to County Governments, technological development, governance, and corporate communication as shown in Table 6-1.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standard (Cash Basis) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Commission's ability to sustain services, disclosing, as applicable, matters related to sustainability of services and using the going concern basis of accounting unless the management either intends to cease operations, or have no realistic alternative but to do so.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

Those charged with governance are responsible for overseeing the Commission's financial reporting process.

Auditor-General's Responsibilities for the Audit of the Financial Statements

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Report of the Auditor-General on the Financial Statements of Public Service Commission for the year ended 30 June 2017

- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances and for the purpose of giving an
 assurance on the effectiveness of the Commission's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Commission to cease sustaining its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Commission to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.
